WORK EXPERIENCE

Rochester Institute of Technology – Rochester, NY *Aug. 2025 - May. 2026*
Project Manager, Data Analyst, Developer

Produced second prototype of IOM project 'CommUnity' based on findings from user testing. Managed diverse team of developers, model trainers, and technical writers. Created branding and presented product for stakeholders. Trained open source models for improved accuracy and data security. Redesigned data analysis and user interface.

Jahjaga Foundation – Pristina, Kosovo *July 2025 - Aug. 2025*
Research Intern

Researched women's access to healthcare in Kosovo. Performed data analysis on surveys and open source databases via Tableau and ArcGIS maps. Completed legal review of healthcare regulations and collaborated in small team to write article of research findings.

RIT College of Liberal Arts – Rochester, NY) *Feb. 2025 - May. 2025*
AI and Open Data Consultant

Continued IOM project following funding cuts. Constructed and embedded a Tableau dashboard for interactive data analytics, with summary report and chat bot features. Designed and coded user interface. Conducted user testing of prototype and published research.

International Organization for Migration – Warsaw, Poland (Remote) *Jan. 2025 - Feb. 2025*
AI and Open Data Consultant

Developed an AI-based web tool to analyze open source Telegram chat forums for displaced Ukrainian refugees in Poland, bringing user-friendly AI technology to humanitarian missions. Implemented API calls and engineered prompts to translate messages, analyze and transcribe photo/video files. Utilized additional AI models to categorize and geolocate data.
