| - Public speaking | - Training | - Strategic analysis |

WORK EXPERIENCE

Jahjaga Foundation – Pristina, Kosovo

July 2025 - Aug. 2025

Intern

Researched women's access to healthcare in Kosovo. Performed data analysis on surveys and open source databases via Tableau and ArcGIS maps. Completed legal review of healthcare regulations and collaborated in small team to write article of research findings.

International Organization for Migration – Warsaw, Poland (Remote)

Jan. 2025 - Feb. 2025

AI and Open Data Consultant to the United Nations

Continued work independently through May 2025 after the cut to funding for USAID forced stop work orders on the project. Developed an AI-based web tool to analyze open source Telegram chat forums for displaced Ukrainian refugees in Poland, long term purpose being to bring user-friendly AI technology to humanitarian missions. Engineered prompts to translate messages, analyze and transcribe photo/video files. Utilized additional AI models to categorize and geolocate data. Constructed a dashboard for interactive data analytics, with summary report and chat bot features. Designed and coded user interface.

EDUCATION

Rochester Institute of Technology

May 2026

Bachelor of Science: Humanities, Computing, and Design

Minor: International Relations

- Dean's List, Fall 2022 – Spring 2026
- Scholarships: RIT Presidential, RIT Recognition, RIT Performing Arts
